Dear Dr. Holliday,

Re: Forest Hill Road
Project No. STP-3213(1,3)/BRMLB-3212(5)

Please accept our apology for the delay in responding to your open records request. The Department takes seriously its commitment to timely responses to all requests for public records. In response to your request I have been advised that documents responsive to your request will be available Monday, July 9, 2012. Due to the large volume of records it will be necessary to make them available on a CD. I will mail the responsive records by close of business Monday, July 9, 2012.

The Georgia Open Records Act, (O.C.G.A. §50-18-70, et seq.) offers the right to inspect documents and then obtain copies, if the requestor so desires, by paying administrative and copying charges provided in the Act. Section §50-18-71.2 of the Act provides that you will be charged for the cost of services associated with the search, retrieval, transport and other direct administrative services incurred in complying with your request at the rate of \$11.60 per hour (excluding the first quarter hour) and \$0.10 per page.

Other than making the documents available for inspection and copying, the Department is not required to create records in order to comply with your request, or to compile lists or other information from records. In addition, the Department is not required to gather records from other governments or government agencies or to gather documents from private entities which belong to those entities and which are not records in the possession of the Department.

In order to respond to your request, it may be necessary for the Department to determine if the records requested fall within the exceptions from disclosure set forth in O.C.G.A. § 50-18-72, or are otherwise exempted from disclosure by law or court order. For example, the Department is not required to make available to you records protected by the attorney-client privilege or attorney's work product privilege O.C.G.A. § 50-18-72(e). To the extent the records are exempt from disclosure or contain such protected information, the records or protected portions thereof will not be made available. It may be necessary for the Department to consult the State Law Department in this regard.

Sincerely,

Brigetta 'Britt' Perry

Subject: Open Records Request - Forest Hill Road - GDOT-projects:
STP-3213(1,3)/BRMLB-3213(5),

Dear Sirs:

The Forest Hill Road (FHR) Mediation Team is continuing to strive to reach a reasonable Compromise Plan for the FHR Project which would save GDOT money and time, and be more efficient, safe and acceptable to the public sentiment as expressed and documented in hundreds of written comments.

Should our efforts fail, we plan to file [for] an injunction against the bid-letting of this project.

Please provide us with GDOT's most recent, documented, bid-let-date plans for the FHR Project.

Thank-you,
- Lindsay Holliday
for the FHR Mediation Team
